

# Jodi Shaw - Chapter Books for Young Advanced Readers

For children reading far beyond their reading level, it may be hard to find books that are appropriate in terms of both reading level AND content. This list consists of books and series that feature strong, positive protagonists (most of them female), yet does not involve situations that are too mature for the young reader to comprehend or understand. Best for advanced readers as young as 6 years old. "Just Grace," "Emily Windsnap," "Clementine" and "Ivy and Bean" are series books.
