## Origin

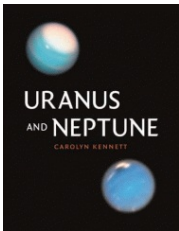

Dan Brown.

Read November 2023 True to Brown's style, interesting and forward thinking

## To Infinity and Beyond

Read November 2023 Interesting, amazing pictures End gets a bit disjointed Easier to understand as a StarTalk listener

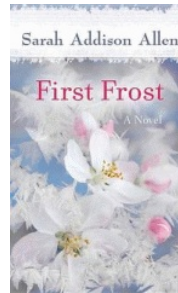

## Uranus and Neptune

Carolyn Kennett

Read October 2023 Interesting but written for a European audience with no conversions in measurements. Also, it's very apparent the author is basing the book on astronomy rather than newer fields of astrobiology, chemistry, or

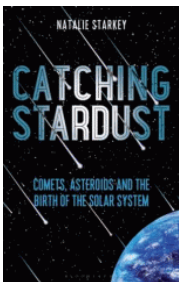

physics.

## First frost

Sarah Addison Allen.

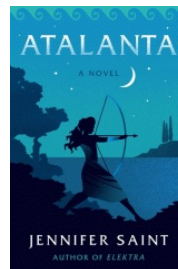

Finished October 2023 Not as good as the original, but true to characters for a sequel. As always, a happy ending.

## Catching stardust

Natalie Starkey.

Read September 2023 A bit monotonous and repetitive. Not a lively or quick read. Interesting information, but highly speculative.

## Atalanta

Jennifer Saint.

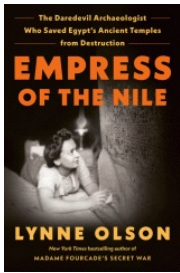

Read September 2023, interesting but seemed to jump around fairly quickly

## Empress of the Nile: The Daredevil Archaeologist Who Saved Egypt's Ancient Temples from Destruction

Read September 2023 Interesting to learn some of the Egyptian history, an impressive life story that sometimes

veered off course a bit.

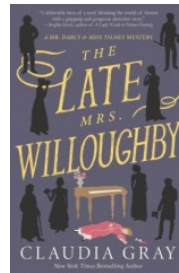

## The Milky Way

via Moiya McTier.

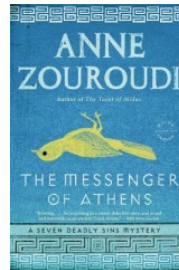

Finished August 2023. Definitely not what I was expecting. Very disappointing. No one wants to be insulted, particularly by a fictional (ish) character. Seemed as though the author's sass and latent anger about various cultural and political topics comes out in the "personality" of the Milky

Way. No...

## The Late Mrs. Willoughby

Finished August 2023. A wonderful follow up to The Murder of Mr. Wickham. The author does such an artful job of capturing the characters in an authentic manner for the time period and Austen's writing. This one was a bit drawn out at the end - instead of being a page-turner, I felt myself hoping to...

## The messenger of Athens

Anne Zouroudi.

Finished 8/5/23 Not my favorite. Everything is sad and backward in this island setting. I'm not sure why they call this "beautiful" - the setting is sad and out of touch with modern times. One would think this was written about the 1950s when women had no rights. I always

dislike the idea that peopl...
